

5. How to dispose of trash

a. Locations for trash disposal

i. Single-family homes: Door-to-door collection

- Collection will be made at each home.
- Please place your trash in a location within your property that faces a public road. Never place your trash in the road (including the sidewalk and gutter).
- Please do not change the pre-determined location for trash collection. Trash collectors will not pick up items when they cannot tell whether or not they are intended for collection. If you must change the collection location, please notify your trash collector or the Hamura City Life Environment Section.

Single-family home

Single-family home facing a private road

Single-family home on an elongated lot

Point 1: Whenever possible, please use a bucket or other such container from your home for placing out cans, bottles, hard plastic, metal, and hazardous waste for collection.

Point 2: On windy days, please use a weight or other means to keep trash from flying away.

*Hanging containers/bags from a gate or fence using an S-hook or other such object will prevent scattering and increase collection efficiency.

Point 3: Please do not change the collection location, even if it is raining on the collection day. On rainy days, please discard old clothes and fabrics on the following collection day; however, place newspapers, magazines, and other paper in their usual location, even if they will get wet.

- ii. Apartment buildings, condominium buildings, and other multi-unit housing: Station collection
- Please use the collection station provided.
 - If you have questions about your collection station, please contact your building's owner or management company.

Multi-unit housing

Point 1: Please follow the rules of the collection station and keep the area clean.

If the collection station is not kept clean, the possibility that non-residents will litter or illegally dump their trash there increases, as does the possibility of arson.

Point 2: If many instances of littering or illegal dumping occur at your collection station even if it is kept clean, there are dial-type (3- or 4-digit) lock-and-key systems available that can prevent this. Please consult with your building's owner or management company about installing such a system.

If your building installs a lock-and-key system, please notify the Hamura City Life Environment Section.

Point 3: Please be aware that trash collection may be stopped if your building's collection station is not managed properly.

iii. PET plastic bottles, white Styrofoam trays, and milk cartons: Collection boxes

- These items should be taken to one of the "special collection boxes (cooperating establishments)" listed on page 34. Collection boxes accept them at any time.
- The city also collects PET plastic bottles at individual houses on the same day that it collects hard plastic as a service for senior citizens and people with disabilities. For details, please see page 12.

Because collection boxes are installed in cooperating establishments, we ask that you show courtesy when using them. (Collection boxes are not trash cans.)

b. Days and times for trash disposal

i. Days for trash disposal

- Please refer to the list on the cover of this manual or the "Trash Collection Calendar" that was distributed to your household.

(Trashed put out on the wrong day will not be collected.)

- Please bear in mind that trash is also collected on public holidays (Monday to Friday except the year-end and New Year holidays).

ii. Time

- Please put your trash out for collection by 8:00 A.M. on the collection day.
- Adverse weather conditions, road conditions, and amounts or types of trash collected may force changes in the collection route, making it impossible to collect your trash at the usual time. We therefore ask that you be sure to put your trash out for collection by 8:00 A.M.
- Placing your trash out the previous day or during the nighttime hours may invite not only arson and theft but also littering and illegal dumping. So please be sure to follow the rules.

Please...

If your trash is not collected by 3:00 P.M. despite your having properly placed it in the collection location before 8:00 A.M., it may be that the trash collectors forgot to pick it up. In this case, please contact the Hamura City Life Environment Section. The Life Environment Section will contact the collection company, which will come by to collect the trash if it is found that it forgot to do so.

However, if you did not place your trash out by 8:00 A.M. or placed it in an incorrect location, your trash will not be collected on that day.

When you are moving...

Please try to arrange your activities so that you can put your trash out according to the normal schedule.

If circumstances dictate that a collection day will not occur prior to your move, please consult with the Hamura City Life Environment Section or the Recycle Center.

c. City-designated trash collection bags

- Waste-processing fees are charged for burnable trash and non-burnable trash.
- Please place your trash in city-designated trash collection bags for Hamura City. **(Please do not use designated bags from other municipalities.)**
- Please refer to "establishments that sell city-designated trash collection bags and waste disposal tickets (oversized trash disposal stickers)" on page 34 for a list of stores that sell city-designated trash collection bags.

Sizes of city-designated trash collection bags and waste-processing fees

1 set of burnable trash bags (blue):
Contains 10 bags

Mini bags (around 5 liters)
(41 cm high by 18 cm wide)
70 yen

Small bags (around 10 liters)
(49 cm high by 28 cm wide)
150 yen

Medium bags (around 20 liters)
(59 cm high by 34 cm wide)
300 yen

Large bags (around 40 liters)
(75 cm high by 45 cm wide)
600 yen

1 set of non-burnable trash bags (yellow):
Contains 10 bags

Point 1: Try to reduce your trash output so that you can dispose of it with smaller bags.

6. Oversized trash

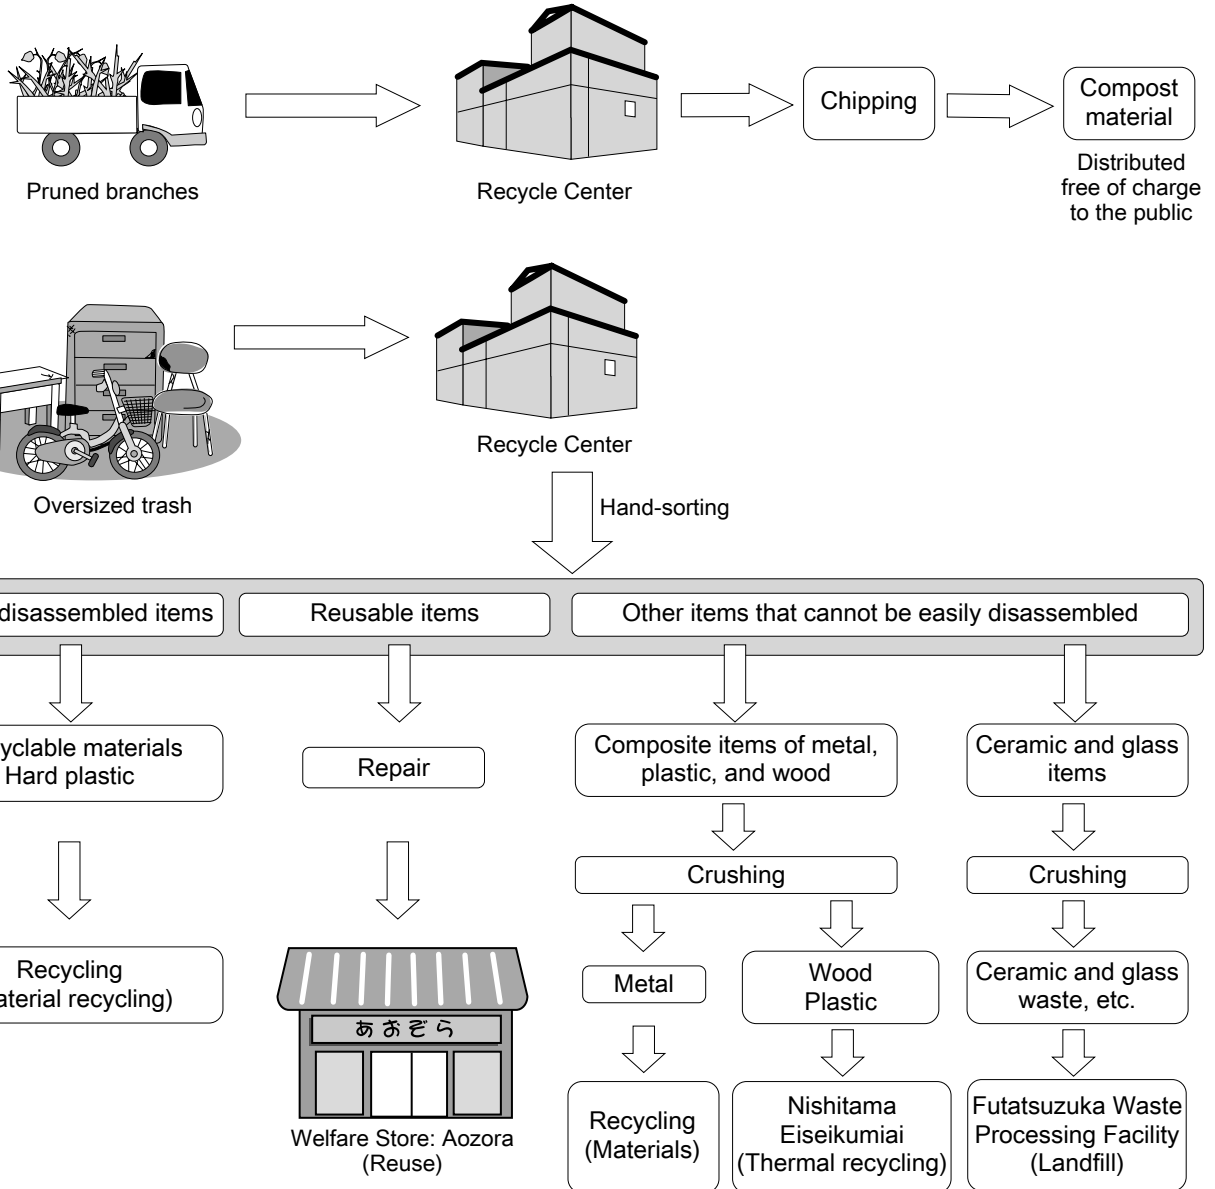

a. Types of oversized trash

Oversized trash (fee charged for collection)

Disposal : For home collection, call the Oversized Trash Center
Or bring the item directly to the Recycle Center (no appointment needed)

[What happens to oversized trash?]

Furniture and other recycled items that have been skillfully repaired by the Hamura City Recycle Center are sold at the "Welfare Store: Aozora."

Please drop by and have a look!

Telephone: 570-6110

Business hours: 9:30 A.M. to 5:00 P.M.

(Closed Saturdays and Sundays)

Oversized trash measures 50 centimeters or more

Examples: Chests of drawers, desks, bicycles, electric fans, chairs, hot plates, tables, snowboards, etc.

Other items

Examples: Stereo sets, kerosene heaters, kerosene fan heaters, microwave ovens, bowling balls, dumbbells, jacks, weight stones, metal tire chains, sewing machines, etc.

Items that cannot be processed with machinery (crushing) are considered oversized trash, even if they measure less than 50 centimeters.

Items that are not oversized trash (items easily mistaken for oversized trash)

Small household electrical goods that are less than 50 cm can be discarded as non-burnable trash. Pieces of wood (shelves, etc.) that have been broken down into sizes of less than 50 cm may be discarded as burnable trash.

Examples: Umbrellas, video decks, electric heaters, rice cookers, vacuum cleaners, etc.

Point 1: Because furniture and similar items will be repaired and reused, please affix oversized trash stickers on parts of the item (glass, etc.) where removal of the stickers will not harm it.

Point 2: Televisions (tube-type), refrigerators, freezers, washing machines, air conditioners, personal computers, car (motorcycle) parts, large safes, fire extinguishers, pianos, earth and sand, and other such items cannot be collected and processed by the city.

Point 3: Oversized trash from businesses cannot be processed by the city. Moreover, oversized trash that was used for business purposes cannot be collected by the city, even if it was used in a household.

Point 4: Please disassemble doghouses, pet hutches, and storage sheds when asking for collection at your home.

b. Disposal of oversized trash

i. Days for trash disposal

- Oversized trash from businesses and stores will not be accepted.
- Disposal methods: 1. Collection at your home
2. Direct delivery to the Recycle Center

Oversized trash sticker

1. Collection at your home

a. Make an appointment Oversized Trash Center: **570-7733**

- Hours appointment requests are accepted (requests accepted even on public holidays, except the year-end and New Year holidays):
9:00 A.M. to 5:00 P.M.
Monday to Friday

b. Determine the oversized-trash collection and processing fee

- Itemized fee table
- If you cannot find the item you're looking for, please call the Recycle Center (578-1211)

c. Purchase oversized trash stickers

- Please pay the fee at a store that sells city-designated collection bags. The store will then issue to you the requisite oversized trash stickers (waste disposal tickets).
- Because the stickers have cash value, they are not sold from store shelves. Please ask a store clerk when you wish to purchase them.
- Stores that sell oversized trash stickers: See the list of stores on page 34

d. Affix the oversized trash stickers to the oversized trash item

- Because furniture and similar items will be repaired and reused, please affix the stickers on parts of the item (glass, etc.) where removal of the stickers will not harm it.

e. Please place the oversized trash item outside by 8:00 A.M. on the day of your collection appointment.

- Because collectors will not be permitted to carry the item from inside your home, please place it in an easily accessible area on your property.

f. Collection by a city-commissioned collecting business (you need not be present for collection)

- Collection times:
8:00 A.M. to 4:00 P.M.
Monday to Friday (collection will be made even on a public holiday, except the year-end and New Year holidays)

Point 1: If you are disabled or elderly and cannot carry oversized trash items out of your home, the collectors will be permitted to do it for you. If you require this assistance, please contact the Oversized Trash Center (a fee will be charged).

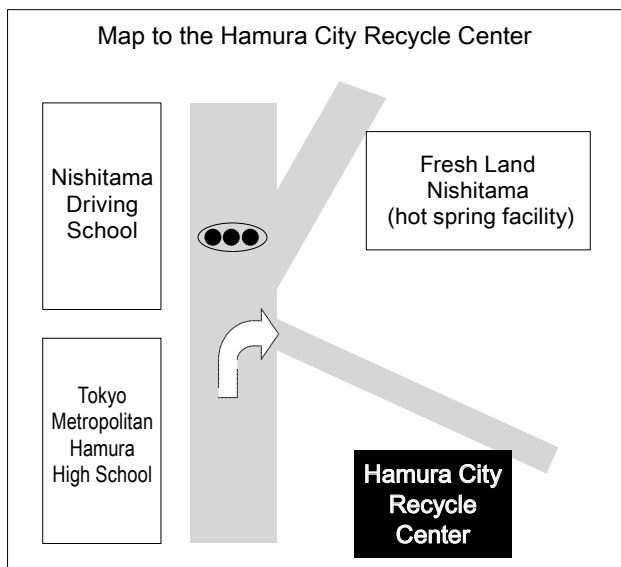

2. Direct delivery to the Recycle Center

- a. No appointment needed.
- b. Bring oversized trash items directly to the Recycle Center during its acceptance hours.
 - Acceptance hours: 9:00 A.M. to 12:00 P.M., 1:00 P.M. to 4:00 P.M.
Monday to Friday and the first Sunday of each month
(Closed on public holidays that fall on weekdays and the year-end and New Year holidays)
- c. Fill out an application form at the Recycle Center reception desk.
 - Please list all oversized trash items you are bringing in on the application form.
 - If you are bringing in a large number of items, preparing notes on all items and their quantities beforehand will speed up this procedure.
- d. Weigh your vehicle with the oversized trash items still inside.
- e. Unload the items at the designated location.
 - Because of the possibility of damage to your vehicle, you will be asked to unload the items yourself.
- f. Weigh your vehicle after the oversized trash items have been unloaded.
- g. Pay the processing fee at the application window.
 - Processing fee: 20 yen for each kilogram (charged in 5 kg units)

Point 1: You will not be permitted to bring in recyclable trash, burnable trash, or non-burnable trash. Please dispose of these items on their normal collection days.

Point 2: Do not bring in oversized trash from places other than an ordinary household—such as from a business or shop.

7. Trash that cannot be collected or handled by Hamura City

a. Difficult-to-process trash

Construction waste, cars, chemicals, and the other items listed below cannot be appropriately processed at the Recycle Center.

Please consult with a business that specializes in disposal of such items.

Waste item	Disposal method (reference only)
Automobiles, motorcycles, boats, jet skis, snow mobiles, and their parts (Body, tires, wheels, muffler, seats, battery, springs, etc.)	Please consult with the dealer, the automobile repair shop you use for insurance inspection, an automobile parts store, etc.
Construction waste (Tatami mats, roof tiles, posts, tiles, solar systems, toilets, etc.)	The business that conducted the work should take responsibility for disposal of construction waste. If you conducted the work yourself, please conduct a private-sector disposal business.
Waste oil and grease (Waste machine or automobile oil, paints, coatings, etc.)	Please dispose of waste oil at an automobile repair shop, gas station, or other such business. If in very small amounts, paints and coatings can be soaked up into paper or cloth and disposed of as burnable trash.
Chemicals (Agrochemicals, medical wastes, toxic substances, disinfectants, pesticides, fertilizers, etc.)	Toxic agrochemicals, etc., are extremely hazardous. Please consult with the pharmacy or store where you purchased the item. Never dispose of such items by discharging them into the sewer system, etc.
Agricultural implements (Farming machinery and equipment, agricultural sheeting, etc.)	Please consult with a store specializing in farm machinery and equipment or a private-sector disposal business.
Earth and sand (Stone, earth and sand, concrete, compost, etc.)	Please consult with a construction supply store or a private-sector disposal business.
Items having explosion risk (Gas canisters, gunpowder, etc.)	For gas canisters, please consult with a business that handles gas; for gunpowder, consult with a specialist disposal company.
Medical waste (Injectors, syringes, infectious waste, etc.)	Please consult with a medical institution (your regular hospital, etc.)
Other difficult-to-process waste (Large safes, fire extinguishers, oil drums, pianos, electric wheelchairs, engines, motors, office equipment for business use, etc.)	Please consult with a private-sector disposal business. For pianos, there are businesses that specialize in recycling pianos.

Point 1: Mixing chemicals, items with explosion risk, etc., with other trash for disposal may cause a serious accident. You are requested to avoid doing so under all circumstances.

Point 2: Because fire extinguishers can be refilled, please consult with a company specializing in fire extinguishers before disposing of them.

Point 3: The city does not possess information on disposal companies or disposal costs; please obtain this information by using the phone book, etc.

Point 4: One approach to disposal of a particular item is to ask the shop at which you are purchasing its replacement to dispose of it for you.

b. Recycling of household appliances

Under the Electric Appliance Recycling Law, televisions (tube-type), refrigerators, freezers, washing machines, and air conditioners cannot be processed by the city. Please dispose of these items properly in accordance with the following methods. (The recycling fee is the same for Methods 1, 2, and 3.)

Disposal methods

Method 1: Ask the shop where you purchased the item to take it

- Please ask the shop where you purchased the item to dispose of it for you.

Method 2: Ask the shop where you are purchasing the item's replacement to take it

- Please ask the shop where you are purchasing a new item to dispose of the old one for you.

Method 3: Follow disposal procedures yourself

- Determine the manufacturer of the item, and then pay the "home appliance recycling fee" at a post office.
- A "home appliance recycling ticket" that you will receive after paying the fee will be required when you hand over the item.

a. When asking for collection at your home:

- To make a collection appointment, call: Marujun Shoji 554-2229
- Hours calls are accepted: 9:00 A.M. to 5:00 P.M.

Monday to Friday (including public holidays except the year-end and New Year holidays)

Note: You will be required to pay collection and transport fees and be present on the day of collection.

For details, please contact Marujun Shoji.

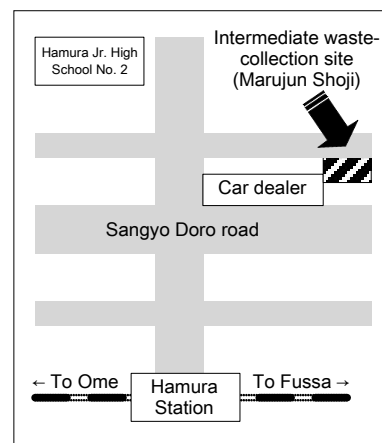

b. When taking the item to the intermediate waste-collection site in Hamura City yourself:

- Location: Marujun Shoji 2-1-14 Fujimidaira, Hamura-shi 554-2229
- Hours items are accepted: 9:00 A.M. to 5:00 P.M.

*Monday to Friday (including public holidays except the year-end and New Year holidays)

Note: You will be required to pay the transport fee to the manufacturer's storage yard.

For details, please contact Marujun Shoji.

c. When taking the item to a designated handling station of the manufacturer (Tachikawa City, etc.)

Note: Please ask the manufacturer for the location of the handling station.

[Fees]

Household appliance	Recycling fee		Payment fee		Collection and transport fees
Televisions (tube-type)	From 2,835 yen				
Refrigerators, freezers	From 4,830 yen	+	Handling fee for payment at a post office	+	Collection and transport fees
Washing machines	From 2,520 yen		From 100 to 150 yen		Determined by each store or collection/transport business
Air conditioners	From 3,675 yen		As of April 2006		

*Recycling fees vary from manufacturer to manufacturer. For information, please contact the relevant manufacturer.

For inquiries on household appliance recycling, please contact:

Kaden Risaikuru-ken Senta (household appliance recycling ticket center)

0120-319-640

9:00 A.M. to 5:00 P.M. (closed Sundays and public holidays)

Website: <http://www.rkc.aeha.or.jp>

c. Recycling of personal computers

- The city cannot accept used personal computers discarded by households.
- If you no longer need a PC in your home, please dispose of it in accordance with the method described below.
- Some computers for which a PC recycling fee was paid at the time of purchase can be collected for free. Please contact your computer's manufacturer for details.

[How to request collection...]

1. Confirm the manufacturer and type of your PC.

[Types]

- Desktop CPU
- Laptop computer
- Liquid crystal display
- CRT display
- PC with integrated liquid crystal display
- PC with integrated CRT display

2. Find the manufacturer's collection office on its website, etc., and apply for collection.

- If your PC does not have a manufacturer that can collect it (because, for example, you built the PC yourself or the manufacturer went bankrupt), please apply for collection with the *Pasocon 3R Suishin Senta* (PC 3R promotion center).
- If you paid the recycling fee when you purchased the PC, please proceed to 4.

3. The manufacturer will send to you a bank-transfer form for remitting the recycling fee.

- Pay the fee at a post office or a designated bank, convenience store, or other establishment.

4. The manufacturer will send to you a transport voucher.

5. After you have packaged the PC and affixed the transport voucher to the box, take the PC to a post office or ask the post office to pick it up at your home.

6. The PC will be recycled by the manufacturer.

[For inquiries pertaining to personal computer recycling, please contact:]

Pasocon 3R Suishin Senta

03-5282-7685

Website: <http://www.pc3r.jp>

Note: A different procedure is used when recycling business PCs.
Please consult the abovementioned organization for more information.

- d. Small rechargeable batteries (nickel-cadmium batteries, nickel metal hydride batteries, lithium-ion batteries, and small sealed lead-acid batteries)

Small rechargeable batteries can be recharged and reused over and over again. They are used in electronic products, electric tools, cellular telephones, personal computers, and other items.

These batteries are printed with a recycling mark. Please take them to a collection box at a cooperating establishment.

[Cooperating establishments that collect small rechargeable batteries in Hamura City]

As of February 2007

Store name	Address	Telephone No.
Arai Denki Shokai	1-9-6 Gonokami, Hamura-shi	554-2393
Caden (Matsuya Denki), Hamura Branch	1-12-7 Sakaecho, Hamura-shi	579-1211
Kusajima Denki	1-19-3 Hanehigashi, Hamura-shi	554-5121
Sano Denki Shokai	1-24-2 Midorigaoka, Hamura-shi	554-5501
Seikatsu Saikan Fujiden	2-1-26 Kawasaki, Hamura-shi	555-2702
Maruwa Denki	4-4-19 Ozakudai, Hamura-shi	555-4727

Nickel-cadmium battery

Nickel metal hydride battery

Lithium-ion battery

Small sealed lead-acid batteries

Point 1: Please try to use rechargeable batteries whenever possible.

(Used only in headphone stereos, portable vacuum cleaners, cordless telephones, and video cameras)

8. If your dog or cat should die...

- a. What to do if your dog, cat, or other small pet dies:

- Place your pet in a cardboard box or other container and take it to the Recycle Center.
- Your pet will be given a memorial service and cremated in a special temple for animals (a fee of 3,000 yen will be charged).
- Hours: 8:30 A.M. and 5:00 P.M.

Monday to Friday (closed Saturdays, Sundays, and public holidays)

- b. If you find a dead dog or cat and do not know who the owner is:

- Please contact the Recycle Center. The center will come to pick up the animal.
- Hours: 8:30 A.M. and 5:00 P.M.

Monday to Friday (closed Saturdays, Sundays, and public holidays)

Point 1: If you find a stray dog or an injured dog or cat, please contact:

Tokyo-to Dobutsu Aigo Sodan Senta (Tokyo animal protection and consultation center)

Tama Office

042-581-7435

9. Establishments that sell city-designated trash collection bags and waste-disposal tickets (oversized trash stickers)

Handled items: City-designated trash collection bags and waste disposal tickets (oversized trash stickers)

Collection station items: PET plastic bottles, white Styrofoam trays, milk cartons

Name of Establishment	Address	Collection bag/sticker sales	PET plastic bottles	White Styrofoam trays	Milk cartons, etc.
