ヤングケアラー講演会

### **Young Carers Lecture>**

「大人になったヤングケアラーと考える～今あなたにできること～」

**～[Thinking about Young Carers Who Have Become Adults～What You Can Do Now].**

Young carers are children and young people who bear an excessive burden of family caregiving, support, and emotional care—responsibilities typically should be handled by adults.

What do young carers say? They grew up in environments where they couldn't care for themselves and have now become adults. Following a screening of the documentary video [Young Carers Who Have Grown Up] ~The Voices We Truly Wanted to Hear~, there will be a discussion with the speakers and an exchange of opinions among participants.

Date and Time: Feb 5th (Thu), 2PM ~ 4PM.

Location: Primo Hall Yutrogi Small Hall.

Capacity: 70 (in application order).

Lecturer: Ms. Mieko Akutsu (Representative Director, NPO UPTREE) etc.

※ For details, please check the city's official website or inquiry.

## <Parenting Training Video of this Month>

「ヤングケアラーについて知ろう」

### ~ Learn About Young Carers

Broadcasting Term: Jan 1st (Thu) ~ 31st (Sat) (about 34 minutes).

Lecturer: Ms. Kumiko Morita (Professor, Faculty of Social Welfare, Risho University).

Only about 30% of the public have heard of "Young Carers", those who provide care for family members with illnesses or disabilities, and understand what it entails.

Because young carer issues are often sensitive family matters that remain hidden. Advancing support requires raising awareness among adults around young carers and increasing the number of people who can recognize them.

One pillar of the national young carer support measures launched in April 2022 is "Raising Social Awareness."

This video aims to educate local residents about who young carers are, their actual circumstances, the challenges they face, and what kind of support is needed. It does this through a lecture and the voices of those directly involved.

### <Health Management Techniques>

#### ~ What Everyone Should Know About Drinking Alcohol.

Inquiries: Kenko Ka (in Hoken Center) ☎ Ext. 624.

The New Year season brings more time with family and friends, increasing opportunities for drinking. However, inappropriate drinking habits can affect not only your health but also various other aspects of your life. Understand the risks of alcohol and strive for mindful drinking that prioritizes your health.

アルコールの代謝と体への影響

#### ○ Alcohol Metabolism and Its Effects on the Body

After drinking, most of the alcohol in beverages circulates throughout the body via the bloodstream and is broken down in the liver. Substances called enzymes are involved in breaking down alcohol. However, if an individual has a genetic predisposition to weaker enzyme activity, even small amounts of alcohol can cause physical discomfort. The effects of alcohol vary significantly between individuals due to differences in age, gender, and constitution, and are also influenced by one's physical condition at the time of drinking. Furthermore, women during menopause or after menopause are said to have heightened sensitivity to alcohol due to hormonal changes.

飲酒による健康リスク

#### ○ Health Risks Associated with Alcohol Consumption

According to the Ministry of Health, Labour and Welfare, the daily pure alcohol intake that increases the risk of lifestyle-related diseases is 40g or more for men and 20g or more for women. This increases the risk of hypertension, cancer, myocardial infarction, stroke, and other conditions. It is also known that even small amounts of alcohol carry health risks.

[Alcohol Consumption Equivalent to Approximately 20g of Pure Alcohol] 【純アルコール量 20g 程度の飲酒量】

Alcoholic Beverages	Alcohol Content	Pure Alcohol Equivalent (20g)
Beer	5%	500ml
Sake	15%	180ml
Shochu	25%	Approx. 110ml
Whiskey	43%	60ml
Wine	14%	Approx. 180ml
Canned Chu-Hi	5%	500ml

お酒との付き合い方を見直してみましょう

## ○ Let's rethink how we handle alcohol

- Understand your own drinking habits.
- Decide on a limit beforehand and stick to it.
- Eat before or during drinking.
- Drink water or non-alcoholic beverages between alcoholic drinks.
- Set aside days each week without drinking (avoid consecutive drinking days)

### [Note]

By attaching this notice of medical expenses, etc. to your final tax return, you can omit the description on the "Detailed statement of medical expenses deduction" for medical treatment.

- ※ Since medical treatment after September 2025 is not covered, if you need to file a tax return, please prepare a separate "medical expenses deduction statement" based on your receipts and attach it. (in this case, the medical expense receipts must be kept for 5 years from the tax filing due date).
- ※ Those who have registered the use of insurance card for My Number Card can view their medical expense information on Myna Portal. Typically, on Feb 9th each year, information for the reporting year from January to December can be obtained in bulk. (This does not include fees for treatments such as acupuncture, moxibustion, anma, massage, etc.)
- ※ For details, please refer to Myna Portal.

### <Beware of Falls!> 転倒事故に注意！

As temperatures drop, limbs become less responsive, increasing the risk of falls.

To prevent accidents, be mindful during daily activities:

- Hold onto nearby handrails or walls when standing up.
- Sit on a chair when changing clothes or putting on socks.
- Be conscious of lifting your feet and toes when walking.
